

# Choko Tree Goals

## **Energy:**

Our energy requirements will be captured, developed or generated on the property

## **Water:**

All rainwater falling on the property will be captured

## **Food:**

Our food will be produced organically sufficient to contribute to two meals a day for the two of us

## **Waste:**

No waste shall leave the property

## **Community:**

We will work within our community to help others live more sustainably

## **Livelihood:**

We will generate our income ethically
